10 BEST PLACES TO LIVE

STYLE BEAUTY

Before the Fall

*Beauty Editor DIANE AIELLO
finds autumn's top crop of
beauty fixers and staples
for smoldering eyes.*

1 SUN SMARTS

I am a huge advocate of sunscreen any time of the year, but it's often a challenge to find the right formula that works under makeup. Recently, I came across **mybody**, a locally owned company that makes a light-weight, silky smooth tinted SPF 30 sunshield called Protect & Serve. It works amazingly well under your foundation or on its own to even out skin. P.S.: It's perfect for rosacea and sensitive skin. www.mybodyskincare.com.

2 FULL RECOVERY

While the rest of the country is feeling cooler fall temperatures, the Valley is still navigating the final heat of the season which means that our skin might need a little TLC. **Tammy Fender Spontaneous Recovery Crème** has been called a complexion lifesaver. This all-in-one nourishing cream/serum/salve offers instant hydration and revives the skin with organic rose hips, lavender and matricaria. \$165. *Select Saks Fifth Avenue stores; www.tammyfender.com.*

3 FILM-WORTHY FLUTTER

What do you get when you pair full flirty lashes with a hint of deep, dark sheen? **Film Noir Lash Lacquer** from Hourglass Cosmetics. The glossy formula glides on over your mascara (Hourglass Film Noir Full Spectrum Mascara is a favorite) for a sexy show-stopping flutter. What's more, it stays put all day so you won't be left with raccoon eyes. \$28. *Sephora.*

4 SULTRY EYES

As soon as summer begins to turn to fall, I am ready to ditch my light and airy makeup shades for a deeper, richer palette. **Josie Maran Argan Beautiful Eyes** palette features four amazing neutral shades, plus one shadow liner, that are perfectly paired to create a gorgeous smoky eye. As always, Maran's products are organic and free of potentially harmful chemicals. \$36. *Sephora.*
