Non-Tinted Sunscreen SPF 30 by GLOWBIOTICS MD is an ultra-sheer sunscreen with complete broad spectrum protection that is enhanced with a plant-based liposome delivery system and a unique probiotic antimicrobial peptide. Free of chemicals, the formula contains unique physical and mineral sun-blocking ingredients that easily absorb into the skin while providing gentle hydration. It is cruelty-free and made without phthalates, sulfates, FD&C dyes, parabens, and mineral oil.
