NEW ARRIVALS • Take Home Acne Treatment Products

Offer patients the latest homecare products to control their acne between office visits.

1. The Glytone Acne Kit is a three-step anti-acne regimen featuring Self-Foaming Cleanser with 5% salicylic acid; hydrating Acne Lotion with 1% salicylic acid; and Acne 3P Gel with 5% benzoyl peroxide. 800.459.8663, glytone-usa.com

2. La Roche-Posay Effaclar Duo Dual Action Acne Treatment offers a non-comedogenic, paraben-free formulation with 5.5% micronized benzoyl peroxide to reduce blemishes and 0.4% lipo-hydroxy acid (LHA) to exfoliate and speed skin regeneration. 800.560.1803, la-roche-posay.us

3. The mybody acne line works to control breakouts and calm irritated skin. Products include: Take Control Calming Gel Cleanser with 2% salicylic acid; Break Free Oil-Free Hydrator; Let Me Clarify Refining Gel; and Obliterate 2-in-1 Extreme Refining Gel with .3% retinol and 5% benzoyl peroxide. 877.423.1314, mybodyskincare.com

4. Jan Marini Skin Research Age Intervention Quality MD was developed to provide anti-acne and antiaging benefits for adult acne patients. The dual-chamber dispenser releases retinol to reduce fine lines and wrinkles and benzoyl peroxide to control acne. Additional ingredients include antiaging peptides and antioxidants. 800.347.2223, janmarini.com

5. Epi-Thermale Avline TriAcneal offers a triple punch of acne-fighting ingredients with Efectosec, glycolic acid and retinaldehyde. Patented Efectosec combats inflammation and abnormal keratinization to combat acne with less irritation than traditional topicals. 866.412.8363, avlineusa.com

6. Specially formulated for individuals in humid climates, lightweight Eplonce Lytic Sport Tx is the latest addition to the Lytic line. The antimicrobial formulation features 2.9% salicylic acid, and helps to control oil production and smooths the contours of the skin to make pores and scars less noticeable. 866.374.6623, eplonce.com
